TAX COMPLIANCES**

The most valued products of PDS Infotech Pvt Ltd, namely TDSMAN (Software for preparing TDS Returns), TDSMAN Online (TDS Returns on the Cloud) and ChequeMan (Cheque Printing Software), has a combined base of over 85,000 users across India. Shares Ranjan Goenka, director of the organisation and a member of Rotary Central Calcutta. "Our user family is growing each year and more than four lakh TDS Returns that are filed annually is being generated through TDSMAN.

■ TAKING ON CHALLENGES

As per Goenka's observation, in case of TDS returns, minor errors lead to default notices, and further, dependence on external professionals often becomes a pain. "One needs to be updated with statutory changes that are regularly announced. In case of receiving a default notice, addressing of the same correctly is always a challenge," points Goenka.

■ CORE COMPETENCIES

According to Goenka, the strength of the organisation lies in its process driven, vibrant customer helpdesk backed up by a responsive development team. The simplicity of the software enables most users to prepare TDS Returns without professional assistance.

■ THE JOURNEY SO FAR

While TDSMAN enjoys an extensive reach across India, it takes pride in establishing credible presence in Andaman, Arunachal, J&K, NE States, etc. Apart from the SMEs and professionals, some of its users

include IOC, PWC, E&Y, Insurance, Banks, Govt, etc. All this has been achieved with the power of digital and focussed customer alignment, affirms the director.

■ FUTURE VISION

The cloud based SAAS model for preparing TDS Returns online has already more than 15,000 sign-ups. "The Enterprise Solution has been soft launched with an objective to help multi-location organisations for efficient adherence of tax compliances" avers Goenka.

■ TOUCHING LIVES

Ranjan Goenka has joined Rotary Central Calcutta only in July 2019. He has been regularly contributing to quite a few organisations and NGOs who are trying to improve the lives of people.
